Date: June 1, 2009

TO: Transportation Committee

FROM: Gordon R. Anderson, Executive Director

SUBJECT: Expo Phase I and Phase II Advocacy and Support

Recommended Action:

That the Committee discuss and provide direction to the Executive Director and Staff on this matter.

Background

At the COG governing board meeting on May 21st, Supervisor Yaroslavsky discussed the Expo Line indicating that there remain a lot of issues. A major issue is with the Phase I, treatment at Dorsey High School which is not resolved. He indicated further that Phase II should be smoother. Following further discussion, it was suggested that an item for the next Transportation Committee be to review how the COG may be helpful in resolving Phase I issues and continued advocacy and support for Phase II. Staff from the Expo authority is being requested to attend the Transportation Committee meeting to assist with the discussion.
